

PROJECT ROCKIT

ANTI BULLYING ELEARNING CURRICULUM YEARS 7 TO 9

An EPIC, DIGITAL EXPERIENCE that channels the insights, imagination and interactivity, of our face-to-face workshops into an INTERACTIVE four-part eLearning program that puts students in the DRIVERS SEAT.

Powered by
en masse[™]

FEATURES AND LEARNING OUTCOMES

1. WIPING THE SLATE: exploring what bullying is and isn't, reflecting on students' previous behaviours and empowering students to tackle the future together.

2. BUILDING EMPATHY & COMMUNICATION: motivating and building the drive for students to stand up to bullying in all forms (With a strong focus on the bystander). Equipping students with skills to respond to bullying and manage conflict, and examining the impact of our behaviour on those around us.

3. CYBERBULLYING: Launching NEW strategies (that students will actually use) and empowers students to create a supportive online culture.

4. LEADERSHIP: Fostering personal leadership skills in those who may not have been previously recognised as leaders, exploring the question: "How do you want to be remembered?"

FORMAT

- Four dynamic 20-minute eLearning modules.
- Creative and youthful design to establish credibility among students.
- Interactive and engaging with fun and challenging games and activities.
- Enables individual learner to take control and appeals to a variety of learning styles.

- Able to reinforce existing anti-bullying curricula.
- Provides pre and post student awareness testing.
- User-friendly and easy to access from anywhere with an Internet connection.
- Features rich Learning Management System that provides teachers and educators with the ability to track student progress; generate reports; moderate use; issue certificates and upload school policies.

PROJECT ROCKIT

Initiated by sisters, Rosie and Lucy Thomas in 2006 in order to build empathy, resilience and leadership by tackling the issue of (cyber)bullying. They've now worked with over 20,000 young people and have earned the reputation as the program that achieves positive lasting change as well as the 'student's favourite'. This eLearning curriculum has been developed in collaboration with En Masse, an online training and education consultancy and personally tailored by Rosie and Lucy, who have applied their expertise, trademark creativity, unique voice and genuine understanding of youth culture to make it easier for schools to tackle the issue of (cyber)bullying.
